Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Intermediate Book Frequent reviews are necessary, in order that pupils may retain principles once acquired. The exercises called Review Work suggest the complete system the teacher will adopt. In Multiplication emphasize the difference in the functions of the two factors. In Division distinguish clearly its two phases - subtractional and partitive. Teach Cancellation as an introduction to Factors. Drills in Factoring should be frequent and thorough. Illustrate each operation in Fractions with objects, or with drawings, cuttings, foldings, etc. Develop the principles in Compound Numbers by actual work with the yardstick and other common measures. In Percentage and Interest illustrate with objective work as in Fractions. Generally: 1. Teach facts before definitions, principles before rules. 2. In analysis encourage completeness in the chain of reasoning and accuracy of expression. 3. Insist upon neatness and orderly arrangement in the forms of written work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
